Enthusiastic about transitioning from logistics and sales to web development, I'm actively learning HTML, CSS, and JavaScript through online platforms like YouTube. Currently, I'm developing a personal project to showcase my skills. With a background in problem-solving and adaptability, I'm eager to contribute to collaborative projects while staying updated on emerging trends. My strong communication and teamwork abilities make me a valuable addition to any development team, despite being new to the field. I'm excited about the opportunity to bring my passion and drive to your organization.
